MOCK TEST PAPER

PAPER – 1: PRINCIPLES AND PRACTICE OF ACCOUNTING

ANSWERS

1. (i) True: Since the temporary huts were necessary for the construction, their cost should be added to the cost of the cinema hall and thus capitalised.
- (ii) False: Finished goods are normally valued at cost or net realizable value whichever is lower.
- (iii) False: The additional commission to the consignee who agrees to bear the loss on account of bad debts is called del credere commission.
- (iv) False: The firm will receive full value of sum assured of the joint life policy on the death of the partner.
- (v) True: When in case of trading activities for a Non-Profit Organisation, the profit/loss from such activity is to be transferred to the Income Expenditure Account at the time of consolidation.
- (vi) False: The right hand side of the equation includes cash twice- once as a part of current assets and another separately. The basic accounting equation is

$$\text{Equity} + \text{Long Term Liabilities} = \text{Fixed Assets} + \text{Current Assets} - \text{Current Liabilities}$$
- (b) Difference between Provision and Contingent liability

	Provision	Contingent liability
(1)	Provision is a present liability of uncertain amount, which can be measured reliably by using a substantial degree of estimation.	A Contingent liability is a possible obligation that may or may not crystallise depending on the occurrence or non-occurrence of one or more uncertain future events.
(2)	A provision meets the recognition criteria.	A contingent liability fails to meet the same.
(3)	Provision is recognized when (a) an enterprise has a present obligation arising from past events; an outflow of resources embodying economic benefits is probable, and (b) a reliable estimate can be made of the amount of the obligation.	Contingent liability includes present obligations that do not meet the recognition criteria because either it is not probable that settlement of those obligations will require outflow of economic benefits, or the amount cannot be reliably estimated.
(4)	If the management estimates that it is probable that the settlement of an obligation will result in outflow of economic benefits, it recognises a provision in the balance sheet.	If the management estimates, that it is less likely that any economic benefit will outflow from the firm to settle the obligation, it discloses the obligation as a contingent liability.

		By Consignment A/c(Commission)	1,47,000
		By Balance c/d	12,23,000
	14,70,000		14,70,000

Working Notes:

1. Consignor's expenses on 500 cases amounts to Rs.1,50,000; it comes to Rs. 300 per case. The cost of cases lost will be computed at Rs. 3,300 per case i.e. 3,000+300.
2. Sandeep has incurred Rs. 36,000 on clearing 400 cases, i.e., Rs. 90 per case; while valuing closing inventories with the agent Rs. 90 per case has been added to cases in hand with the agent i.e. 3,000+300+90.
3. The goods in transit (50 cases) have not yet been cleared. Hence the proportionate clearing charges on those goods have not been included in their value i.e. 3,000+300 =3,300.
4. It has been assumed that balance of Rs. 12,23,000 is not yet paid.

(c) (i) Taking 19.6.2021 as a Base date

Transaction Date	Due Date	Amount	No of days	Amount
8.3.2021	11.7.2021	16,000	22	3,52,000
16.3.2021	19.6.2021	20,000	0	0

17.5.2021	20.8.2018	20,000	62	12,40,000
		80,000		35,84,000

$$\begin{aligned}
 \text{Average Due Date} &= \text{Base date} + \frac{\text{Total of Product}}{\text{Total of Amount}} \\
 &= 19.6.2021 + \text{Rs. } 35,84,000/\text{Rs.}80,000 \\
 &= 19.6.2021 + 44.8 \text{ days (or 45 days approximately)} \\
 &= 3.8.2021
 \end{aligned}$$

Amar wants to save interest of Rs. 628. The yearly interest is Rs. 80,000 × 18%
= Rs. 14,400.

Assume that days corresponding to interest of Rs. 628 are Y.

Then, 14,400 × Y/365 = Rs. 628

or Y = 628 × 365/14,400 = 15.9 days or 16 days (Approx.)

Hence, if Amar wants to save Rs. 628 by way of interest, she should prepone the payment of amount involved by 16 days from the Average Due Date. Hence, she should make the payment on 18.7.2021 (3.8.2021 – 16 days)
